

# 12v 110Ah

## Slimline Lithium Battery

# WARNING!

## Contains LiFePo4 Cells

- Avoid mechanical shock
- Do not expose to fire
- Do not pierce battery
- Do not disassemble
- Do not drill into enclosure
- Do not short the terminals
- Do not allow water to enter
- Do not charge battery below 0°C
- Do not store battery below -20°C or above 60°C
- Adequately fuse all connections
- Use LiFePo4 charger only

## RISK OF BURNS IF MISUSED

- Nominal voltage 12.8v
- Nominal capacity 110Ah
- Continuous discharge current 120a
- Peak discharge current <1s 360a
- Continuous charge current 60a
