

Direction for use

Wax & Clean should be applied 21 days after the final coat of Vesting Waxoil or Vesting Wax to allow for proper drying of the original finish. To use add approximately 200-300 ml Wax & Clean to 10 litres of water (20-30 ml to 1 litre of water).

Take a (cloth) mop and wring out making the mop damp. Clean the floor with the Wax & Clean / water mixture. Excessive water must be removed from the floor immediately. Never drench or allow water to pool and sit.

Storage

Store in original closed packaging in a frost free place.

Safety data sheet available on request.
Keep out of the reach of children.

Onderhoud
Maintenance

Wax & Clean

vesting.

Wax & Clean is a water-based maintenance and cleaning product used for hard wax oil and wax impregnated wooden floors.

Wax & Clean provides a highly anti-slip effect and adds an additional thin coat of protection against moisture and stains.

Ingredients according EC648/2004:
non-ionic surfactants < 5%,
BENZISOTHIAZOLINONE,
METHYLISOTHIAZOLINONE

It is the responsibility of the user to determine by own testing whether the product is suitable for the chosen application.

I am a 100% recycled bottle made in Australia. Please recycle me again when you are done.
